DETAILED ACTION

Allowable Subject Matter

1. Claims 1-5, 7-11, 14-23, 25-26, 28-39 are allowed.
2. The following is an examiner's statement of reasons for allowance: The prior art of record does not teach a method of coding a bitstream encoded according to a Huffman coding tree of height H that extracts a first codeword of H bits from the bitstream, modifies the codeword by shifting it by a first shift value and using this modified codeword to identify using at least a first data structure rather a symbol or a second different data structure having a second offset value and a second shift value and if a second data structure is identified using the first data structure modified the codeword by subtracting the second offset value and shifts the result by the second shift value; the prior art does not also disclose subtracting a first offset value from the codeword to obtain a result, then shifts the result by a predetermined value, and uses the modified codeword to identify a symbol using at least a first data structure; the prior art of record does not access a data structure to obtain a value corresponding to a first node position of the coding tree where that value refers to a second data structure, converts the value to a first codeword into a second node position within a first sub-tree at a second level of the tree and access the second data structure to obtain the value corresponding to the second node.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
